# **WhisperWatt**<sup>™</sup>

Prime Rating — 68 kW (85 kVA) Standby Rating — 75 kW (94 kVA)

60 Hertz, 0.8 PF

#### STANDARD FEATURES

- Heavy duty, 4-cycle, direct injection, turbocharged diesel engine provides maximum reliability.
- **Brushless alternator** reduces service and maintenance requirements and meets temperature rise standards for Class F insulation systems.
- Open delta alternator design provides virtually unlimited excitation for maximum motor starting capability.
- Automatic voltage regulator (AVR) provides precise regulation.
- Electronic Governor Control maintains frequency to within ±0.25% from no load to full load.
- Full load acceptance of standby nameplate rating in one step (NFPA 110, para 5-13.2.6).
- Sound attenuated, weather resistant, steel housing

   provides ultra-silent operation at 68 dB(A) at 23 feet. Fully lockable enclosure allows safe unattended operation.
- Integrated fuel tank with direct reading fuel gauges are standard.
- Fuel/water separator removes condensation from fuel for extended engine life.
- Seven-stage powder coat paint provides durability and weather protection.
- Complete engine analog instrumentation includes

- DC ammeter, oil pressure gauge, water temp. gauge, fuel level gauge, tachometer/hour meter, preheat indicator, and emergency shutdown monitors.
- Simultaneous single and three phase power.
- Complete generator analog instrumentation includes voltage regulator control, ammeter phase selector switch, voltmeter phase selector switch, AC voltmeter, AC ammeter, frequency meter, panel light, and circuit breaker.
- Automatic safety shutdown system monitors the water temperature, engine oil pressure, overspeed and overcrank. Warning lights indicate abnormal conditions.
- Automatic start/stop control automatically starts the generator set during a commercial power failure when used in conjunction with a transfer switch.
- Complete power panel fully covered; three-phase terminals and single phase receptacles allow fast and convenient hookup for most applications including temporary power boxes, tools and lighting equipment. All are NEMA standard.
- Voltage selector switch allows easy to change voltages as your applications require.
- **EPA emissions certified** Tier 3 emissions compliant.

#### **SPECIFICATIONS**

| Generator Specifications                      |  |  |
|---|--|--|
| Design  | Revolving field, self-ventilated, drip-proof, single bearing,      |  |
| No. of Poles                                  | 4-pole   |  |
| Excitation                                    | Brushless with AVR   |  |
| Standby Output                                | 75 KW (94 KVA)   |  |
| Prime Output                                  | 68 KW (85 KVA)   |  |
| Generator RPM                                 | 1800   |  |
| Voltage - 3Ø                                  | 208, 220, 240, 416, 440, 480V Switchable                           |  |
| Voltage — 1Ø                                  | 120, 127, 139, 240, 254, 277V Switchable                           |  |
| Voltage Regulation (No load to full load)     | ±0.5%  |  |
| Power Factor                                  | 0.8  |  |
| Frequency                                     | 60 Hz  |  |
| Frequency Regulation:<br>No Load to Full Load | Isochronous under varying loads from no<br>load to 100% rated load |  |
| Frequency Regulation: Steady State            | ±0.25% of mean value for constant loads from no load to full load. |  |
| Insulation                                    | Class F  |  |
| Sound Level dB(A) Full load at 23 feet        | 68   |  |

| Engine Specifications     |   |
|---------------------------|---|
| Make / Model              | Isuzu / BJ-4JJ1X                                      |
| Emissions                 | EPA Interim Tier 3 Certified                          |
| Starting System           | Electric  |
| Design                    | 4-cycle, water cooled, direct injection, turbocharged |
| Displacement              | 183.0 in <sup>3</sup> (2999 cc)                       |
| No. cylinders             | 4   |
| Bore x Stroke (mm)        | 95.4 x 104.9  |
| Gross Engine Power Output | 97.9 bhp (50 kW)                                      |
| BMEP                      | 204 psi (1409 kPa)                                    |
| Piston Speed              | 1237 ft./min. (6.29 m/s)                              |
| Compression Ratio         | 17.5:1  |
| Engine Speed              | 1800 rpm  |
| Overspeed Limit           | 2100 rpm  |
| Oil Capacity              | 3.96 gallons (15 liters)                              |
| Battery                   | 12V 72Ah x 1  |

| Cooling System                         |                            |
|--|----------------------------|
| Fan Load                               | 3.06 hp (2.3 kW)           |
| Coolant Capacity (with radiator)       | 4.76 gallons (18.0 liters) |
| Coolant Flow Rate (per minute)         | 48 gallons (180 liters)    |
| Heat Rejection to Coolant (per minute) | 2990 Btu (3.15 MJ)         |
| Heat Radiated to Room (per minute)     | 1219 Btu (1.28 MJ)         |
| Maximum Coolant Friction Head          | 2.0 psi (13.8 kPa)         |
| Maximum Coolant Static Head            | 21 ft (6.4 meters)         |
| Ambient Temperature Rating             | 104°F (40°C)               |

| Air                             |                         |
|---------------------------------|-------------------------|
| Combustion Air                  | 223 cfm (6.31 m³/min)   |
| Maximum Air Cleaner Restriction | 25.0 in. H2O (6.25 kPa) |
| Alternator Cooling Air          | 911 cfm (25.8 m³/min)   |
| Radiator Cooling Air            | 2966 cfm (84.0 m³/min)  |

| Exhaust System        |                                    |
|-----------------------|------------------------------------|
| Gas Flow (full load)  | 612 cfm (17.3 m³/min)              |
| Gas Temperature       | 1042°F (561°C)                     |
| Maximum Back Pressure | 30.0 in.H <sub>2</sub> O (7.5 kPa) |

| Amperage                          |                     |
|-----------------------------------|---------------------|
| Rated Voltage                     | Maximum Amps        |
| 1Ø 120 Volt                       | 188.9 Amps (4 wire) |
| 1Ø 240 Volt                       | 94.9 Amps (4 wire)  |
| 3Ø 240 Volt                       | 204 Amps            |
| 3Ø 480 Volt                       | 102 Amps            |
| Main Line Circuit Breaker Rating  | 250 Amps            |
| Over Current Relay Trip Set Point | 102 Amps            |

#### **WARRANTY\***

#### **John Deere Engine**

12 months from date of purchase and unlimited hours or 24 months from date of purchase with 2000 hours (whichever ocurs first).

\*Refer to the express written, Engine warranty sheet for additional coverage information.

#### Generator

24 months from date of purchase or 2000 hours (whichever occurs first).

\*Refer to the express written, one-year limited warranty sheet for additional information.

#### Trailer

12 months excluding normal wear items.

#### **NOTICE**

Generator is not intended for use in enclosed areas or where free flow of air is restricted.

Backfeed to a utility system can cause electrocution, shock and/ or property damage. **DO NOT** connect to any building's electrical system except through an approved device.

Specifications are subject to change without notice.

#### **MQ POWER DECIBEL LEVELS**

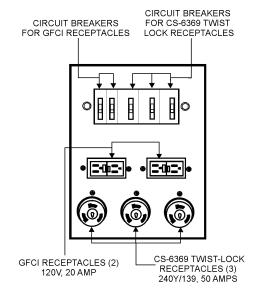

Our soundproof housing allows substantially lower operating noise levels than competitive designs. WhisperWatts are at home on construction sites, in residential neighborhoods, and at hospitals — just about anywhere.

- 80—Average city traffic
- 70 Inside car at 60 mph
  WhisperWatt at 23 feet
- 60 Air conditioner at 20 feet
- (50) Normal conversation

#### **GENERATOR OUTPUT PANEL**

#### **OPTIONAL GENERATOR FEATURES**

- Battery Charger provides fully automatic and selfadjusting charging to the generator's battery system.
- Jacket Water Heater for easy starting in cold weather climates.
- **Special Batteries** long life batteries provide extra engine cranking power.
- Low Coolant Level Shutdown provides protection from critically low coolant levels. Includes control panel warning light.
- **Spring Isolators** provides extra vibration protection for standby applications.
- Trailer Mounted Package meets National Highway Traffic Safety Administration (NHTSA) regulations. Trailer is equipped with electric or surge-hydraulic brakes with tandem axle configuration. Extra capacity fuel tanks are also available.

# **OPTIONAL CONTROL FEATURES**

- Emergency Stop Switch when manually activated shuts down generator in the event of an emergency.
- Audible Alarm alerts operator of abnormal conditions.

#### OPTIONAL FUEL CELL FEATURES

- Trailer fuel tank a second fuel cell located in the trailer allows for extended run time.
- Subbase fuel cells (single wall) additional fuel cell for extended runtime operation.
  - 12 hours of minimum run time.
  - 24 hours of minimum run time.
- Subbase fuel cells (double wall) additional fuel cell for extended runtime operation. Contains a leak sensor, low fuel level switch, and a secondary containment tank. UL142 listed.
  - 12 hours of minimum run time.
  - 24 hours of minimum run time.
- Audible alarm alerts operator of abnormal conditions

### **OPTIONAL OUTPUT CONNECTIONS**

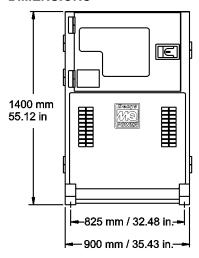

- CamLok<sup>™</sup> Connectors provides quick disconnect alternative to bolt-on connectors.
- Pin and Sleeve Connectors Appleton, Crouse-Hinds.
- Output Cable Type G, Type W

# **DIMENSIONS**

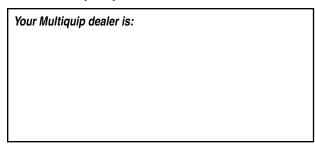

| Weight                         |                       |
|--------------------------------|-----------------------|
| Dry Weight                     | 3,560 lbs. (1,615 kg) |
| Wet Weight                     | 4,107 lbs. (1,863 kg) |
| Max. Lifting<br>Point Capacity | 5,150 lbs. (2,335 kg) |

Generator can be placed on MQ Power Trailers TRLR75XF, TRLR85XF, and TRLR125XF.
